EDUCATION

California State University, East Bay	Hayward, CA
Master of Science in Computer Science	*Jan. 2022 - Present*
Lokmanya Tilak College Of Engineering, University of Mumbai	Mumbai, India
Bachelor in computer science and engineering	*Aug. 2015 – May 2019*

TECHNICAL SKILLS

Languages: Java, Python, C/C, SQL (Postgres/MySQL), JavaScript, HTML/CSS,
Frameworks: React, Node.js, Flask, FastAPI, Django
Developer Tools: Git, Docker, TravisCI, Google Cloud Platform, VS Code, Visual Studio, PyCharm, IntelliJ, Eclipse, SoapUI, Figma
Libraries: pandas, NumPy, Matplotlib, Jinja, Selenium Webdriver, BeautifulSoup

EXPERIENCE

Programmer	Aug. 2019 - Dec. 2021
Bitwise Technologies Pvt. Ltd.	*Pune, India*

- Worked as a Development And Research Team(DART) member and collaborated meetings and presentations with other teams and arranging events for technological innovations.
- Developed REST APIs using Java Spring Boot and PostgreSQL to store and retrieve data from Employee Database.
- Developed a full-stack web application using Java Spring, Javascript, PostgreSQL, Tableau and Chart.js to analyze and visualize the Sales Data.
- Build a fully-functional text and voice based chatbot to interact with client teams and help them visualize day to day reports.
- Integrated VR technology with chatbot and visualisation technologies to showcase an end-to-end visualisation tool capable with voice and text chatbot and explored certain Machine Learning techniques to predict future reports.
- Worked along with clients across the globe to deliver enterprise level applications which are tailored to their customer needs. Increased the lead collection for the clients using chatbots by 53 percent.
- Actively volunteered for various social causes hosted under the Biwtise Foundation helping the community and building a strong sense of trust.

Co-Technical Lead for Computer Society of India, Local Chapter	July 2017 - May 2018
University of Mumbai	*Mumbai, India*

- Collaborated with teams to build an environment for technical competence.
- Organising workshops, seminars and events for the tech aspiring students conducted by Industry leaders and pioneers.
- Conducted a tech talk event on cloud computing which focused on the impacts of cloud computing and explored top vendor platforms.
- Collaborated with CESA(Computer Engineering Student Association) to host a technical conference where students presented technical and research papers on various leading technologies.
- Organised a Cybersecurity workshop for young tech enthusiasts and students to help them educate regarding cyber attacks and related concepts.

PROJECTS

Smart Vehicle Security and Maintenance System | *PHP, Java, MySQL, HTML/CSS, C* June 2018 - May 2019
- Developed a full-stack web application using PHP and MySQL to build a responsive website and used Arduino board to mount on the vehicle to collect and transmit data to the Android Application.

100 days of Code | *Python3, TkinterGUI, Flask, Django, Pandas, Git, HTML/CSS, Bootstrap, Javascript* Jan 2021 - August
- This project is a collection of 100 projects which I undertook as a challenge to learn, explore and master the python skills and also integrating various technologies to create interesting projects.
